QSO's with each bonus station will earn an additional 50 points, with an additional 200 points for a clean sweep of all six. Special certificates will be issued to all stations who accomplish a clean sweep.

There are several important changes to our rules and category descriptions. These changes were designed to induce operators to get out into the field. For example, NC has 124 designated Parks On The Air (POTA) parks in 66 of our 100 counties. Many of those are located in counties that are rarely activated. Documents describing those opportunities will be posted on our website and social media pages.

In 2023, the NCQP received 545 Logs and recorded 59,709 QSO's

Spread the word. Get on the air. You'll find plenty of action. The NC QSO Party continues to grow rapidly and is definitely an enjoyable event.
